

# Monsoon A Frame Assembly Guide

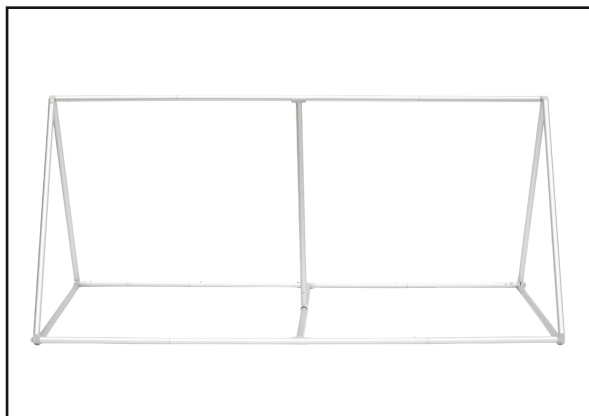

**Step 1 :** Unpack all the contents of the carry bag.

**Step 2 :** Assemble the A Frame by matching the corresponding numbers located on each pole.

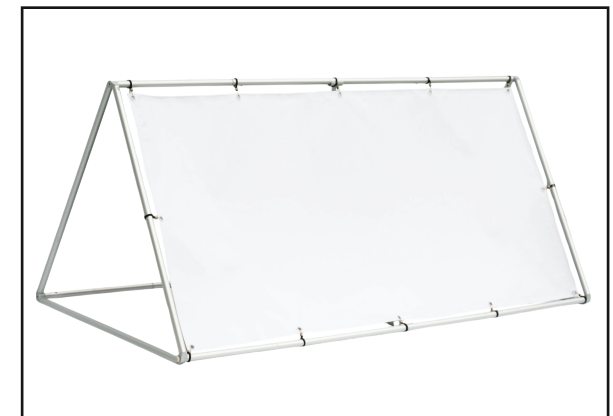

**Step 3 :** Twist the screw to secure each side of the A Frame.

**Step 4 :** Continue to connect the poles to build the rest of your frame.

**Step 5 :** Use the small bungees to wrap around the poles and loop them through themselves. The hook should sit inside of the eyelets. Continue to do this around each of the eyelets to secure the banner to the frame.

**Step 6 :** You should now have a great looking Monsoon A Frame.
